It's The End of The Road for Swiss Cash & Other Get Rich Quick Schemes

As announced by the Malaysian [Securities](#) Commission (SC) recently, they have now started to block access

to several illegal investment scheme websites. This measure started yesterday, Monday 11 Jun 2007. At the time of this writing, the popular ones such as SwissCash.net and SwissMutualFund.Biz are no longer accessible from within Malaysia.

If data from Alexa.com can be taken into account, Malaysian is by far the largest group of investors in Swiss Cash

Swisscash.net users come from these countries:

Without them, the scheme is already dead. I believe the majority of these investors do not know how to use proxy servers to get around this restriction. Without fresh money coming in – it's the end of the road for Swiss Cash.

However last time I checked via a proxy, SwissCash.Net seemed to have difficulties serving their pages – perhaps an indication that it'll be shut down soon by the operator?

If Swiss Cash could get out of this debacle unscathed which I doubt it will, that will count for something. I tend to believe that like all get rich schemes which depend on new money coming in to pay old investors, in the current state Swiss Cash will die soon, real soon.

This will ultimately prove that Swiss Cash is just another scam. The investors just didn't know it.

If you have question regarding SC's move, please refer to [their FAQ](#)

Check out [SC's alert list here](#).

While I appreciate SC's effort to stamp out those get rich quick websites, I think [blocking websites](#) is not the solution to the problem. Some people need to see how get rich scheme [websites](#) operate and without the access to such information, [new investors](#) won't be able to differentiate between legal and illegal ones when new schemes crop up. Of course it'll get harder for the operators to become establish but censorship won't eliminate the such schemes.

What happen to the [Government's guarantee](#) not to censor the [Internet](#)?

“KUALA LUMPUR March 16 - Prime Minister Datuk Seri Dr Mahathir Mohamad has advised the Cabinet to dispense with attempts on [internet censorship](#), said Multimedia Development Corporation (MDC) executive chairman Tan Sri Dr Othman Yeop Abdullah today.

‘The Prime Minister has given specific instructions that there will not be censorship on the internet. That's the position of the government,’ he said at a press [conference](#). He explained that the Prime Minister was reaffirming a pledge in the Bill of Guarantee last week that there will be no censorship on the internet.

OK, that's what the ‘previous’ government said. But still...

Anybody from [Malaysia Super Corridor \(MSC\)](#) can access those websites?

I agree with u, letting the access might help people to be aware. But again, government have rights to control ..

Personally, I think this is the lazy way out.

They could've focused more on educating Malaysians about these HYIP scams, but instead choose to stoop so low as to use censorship.

This sets a very unhealthy precedence in terms of free Internet access. Who knows, now it'll be "Get Rich Quick Schemes Web Sites", next it might even be "Culturally Unacceptable Web Sites", then before anyone realises it, we'll have Internet censorship just like Singapore and China.

How about eaindex and winlifund, can they still be accessed using proxy? I can't try myself, my connection is snail-like slow from here.

I have read many comments from people about Swisscash and now it appears that you have declared it dead. I do have one question. Has anyone heard of someone not getting paid the money from Swisscash?

We declared that this year we are already “50 years” being an independent country.

To me... I still call my country “MALAYA”...

Kerajaan kata nak protect pelabur supaya tidak kena tipu. Tapi bagai mana dengan saham sabah?. Bagus lagi swisscash, pulangan saya pun sudah setengah Karung.

kalau kita sehati, kita boleh bawa kerajaan Malaysia ke muka Pengadilan Antara Bangsa kerana menutup atau mengganggu web site. Sebenarnya Internet tidak boleh disekat, terpulanglah pada pengguna untuk menggunakannya. Kita sudah sedia maklum bahawa INTERNET ialah asal perkata dari ENTER NET iaitu Enter ialah Masuk dan Net ialah Jaring atau Jala (perangkap) jadi kalau masuk perangkap, itu kami punya tau lah. Sekarang kita ini rakyat Malaysia bukan Malaya.

Hey, I'm an investor of Swisscash, and it's a shame that the SC had to resort to banning all such investing websites. The main thing that makes it all so frustrating is that Swisscash has been producing benefiting results to me, and everyone who has been investing in it. It's upsetting really.

People who actually claims that it is a scamming business, say it probably due to previous experience with other investing schemes. But don't put the blame on Swisscash without further substantial evidence. Generalizing it is one thing, but to point a finger at it with no prove at all is another.

Lesson learned here...

- 1) Foreign investors can invest in Malaya...
- 2) Normal Local "Street-Person" "denial-access" to invest in Foreign Investment Scheme (via Internet)...
- 3) No Problem for "Big-Guns" Biz Malayan People to Invest in Foreign Investment because these people have tons of Money in the first place (I wonder where all those GLC's get their money in the first place... TNB, TM, Proton, etc. to name a few... ooopss... my mistake... maybe from all of us...)
- 4) We are a bunch of Malayan citizen that will always abide to rules and regulations thrown to us by a bunch of "Administrative Power" that we ourself put them in "Power" on the first place...
- 5) Malayan's cannot decide or choose... because "Directive Order" is set from time to time and we should just abide and follow... no question asked... not THINK... just be a good citizen and abide...
- 6) The Malayan Media (New, TV and Radio) influence our daily mindset... in other words... me Malayan's must "think" as a "malayan" and not as a "person" or "a human being"... with own GOD willing self-thought...
- 7) Knowlegde in Malaya is for Malayan's only... but knowledge from other Foreign Country is "bad influence" to us... and might jeopardise the way "Normal Malayan's way of thinking"...

Rules and Regulations must change from time to time to complecent the "Administrative in Power"...

Lastly... like the "Pak Pandir Song"... Ada Mata Lihat, Ada Telinga Dengar, Ada Mulut Diam... Ada Kaki Bentak...

(translation)

Have Eyes and See, Have Ears and Hear, Have Mouth and Shut-Up... Have Legs and Stump... (bad translation)

To all Malayan's that have lost their "Monies" in these HYIP's Investment Scheme... don't be sad... because... maybe... all these people doesn't care and bother to read the "TERMS & CONDITIONS" during signing-up... and it's oneself fault and ignorance...

But... if "True" Investment Scheme that pays and being "BLOCKED"... that is a different story...
"MALAYA BOLEH!"

Im Swisscash Investor, I feel its really unfair where the government block for certian webside only but how about Sunshine Empire? Its still can be access as I understand the investor including the politic people too so they will have EXCEPTION!!!

Lately the Swisscash has stop all MY ID to access the member page, but whats is the point of this action?

I feel its really big shame to all my foreigner friends where this stupid action from Malaya make they laugh all the way.

Hi...

It about FREEDOM to live a "better" life...

FREEDOM to "choose"...

FREEDOM to "decide"...

We Malayan's are not "mindless" people and should not be "treated" in such a way...

Just be "patient"...

Truth will prevail...

Learn from previuos mistake... and... move on...

It's not the END OF THE WORLD...

Standup... be Steady... Walk Straight...

Don't Grumble... Don't Stress Oneself...

Live life for the FULLEST...

Have FAITH...

My 2 cents...

so what if it is a scam or not? it's the calculated risk that each individual take. I put in \$10000 USD today. I get my returns each month. 1 year or 2 years down the road, it got busted, I would have still made a profit. That's risk. What's the safest investment in the market? You tell me now? Even if you can find any, you are no God to predict the outcome. To me if it's the safest, it has the lowest returns. Think about it people.
