Educational Background							
Accessibility as a Public Servant if elected							
My Subjective Preference (Caste, Religion, Gender or any other)							
Total Score							

Released in public interest by All India Forum of Netizens (www.aifon.org.in)

How to assign scores?

Collect as much information as possible about your candidate. Check the Karnataka election commission website to view the affidavit filed by the candidate which indicates his assets and criminal records. If the candidate has stood for the past election, you can check by how much his wealth has increased during the last 5 years. There are websites such as www.myneta.info where more information about the candidates would be available. Hopefully www.bpac.in may also provide some information.

If you are uncertain, assign "0". If you have positive information/view, assign +1 to +10. If you have negative information/view, assign -1 to -10.

Add the scores and chose that candidate who appear to have the maximum positive score. If none have a positive score, chose a candidate with the least negative score.
